Nabil Slimani, Frontend Web Developper

Switching tracks from train conductor to frontend developer, I'm coupling technical knowledge with people skills on my journey.

Projects

Dec 2023 - Current

My Portfolio, Full-Stack Developper

- Integrated **React Router** for easy navigation and page transitions.
- Incorporated **PDF viewer** component for showcasing resumes and documents.
- Used **Flexbox** and **Grid** for responsive and flexible layout design.
- Used **Ant Design** for UI components and consistent design style.
- Optimized website structure and content for **accessibility** and **SEO**.
- Integrated **Vite.js** for rapid development and reloading, and better development efficiency.
- Utilization of **React.js** frameworks for efficient component-based development.
- Utilization of **Netlify** for deploying the website and continuous deployment.
- Use of **GitHub **for versioning and reviews.

Oct 2023 - Nov 2023

Backend of book evaluation app - Mon Vieux Grimoire, Backend developper

- Use of **Node.js** as runtime and **Express.js** for backend development.
- Creating **API routes** for user functions like login, authentication and managing books like adding, deleting, and modifying books.
- User management: Setting up authentication with encrypted passwords with **Bcrypt** and **Mongoose unique validator.**
- Used **MongoDB** for storage.
- Ensuring API security against attacks, with a rate limitation per time.
- Implementing eco-friendly practices: Converting images to WebP format and resizing for minimal environmental impact using **Sharp** and **Multer.**
- Implementation of **middleware** for data validation, and error management, alongside **controllers** for organizing application logic and handling specific request types.

Aug 2023

React app for housing solutions - KASA, Frontend developer

- Utilized **React.js** to craft interactive and dynamic user interfaces.
- Implemented effective **state management** techniques to ensure smooth data handling and consistent synchronization between different parts of the application.
- Designed and implemented a modular, component-based **UI**, facilitating easier maintenance and scalability for future updates and expansions.
- Acquired **debugging** and **optimization** skills to identify and resolve issues within the codebase, improving overall application performance and stability.
- Use **Create React App** to initiate project.
- Set up navigation with **React Router**

Jul 2023 - Aug 2023

Debbuging client website - Portfolio Nina Carducci, Frontend developer

- Identify and **Debug** errors affecting the functionality of the portfolio.
- Utilize **Lighthouse** and **WAVE** testing tools to assess and improve the performance, accessibility, and overall quality of the portfolio.
- Utilize version control systems to manage and track changes, ensuring a systemic approach to debugging.
- Implemented **Green Code** practices by converting images to the WebP format, reducing file size, and resizing to minimize environmental impact.

Jun 2023 - Jul 2023

Agile planification, Frontend developer

- Utilization of **Agile** project planning and management principles.
- Practical experience with the **Scrum** methodology for effective task execution.
- Active participation in sprint planning and execution to ensure iterative deliveries.
- Adaptability to changing priorities and the ability to maintain continuous development despite adjustments.

May 2023 - Jun 2023

Photographer portfolio - Portfolio Sophie Bluel, Frontend developer

- Develop a **JavaScript vanilla** app that keeps the artistic presentation.
- Implement a dynamic picture gallery with JS and a carousel.
- Add a contact form

Apr 2023 - May 2023

Housing app frontend - BOOKI, Frontend developer

- Responsive web integration via HTML.
- **CSS** stylize with Flexbox and Grid.
- **Figma** utilization to study and prepare the blueprint.
- **Git** and **GitHub** versioning, with Pull Request and reviews from my mentors.

Skills

`JavaScript vanilla` `React` `Node.js` `HTML` `CSS` `Express.js` `Sass`
`MongoDB` `Figma` `Flexbox` `Grid` `Sharp` `Multer` `Mongoose`
`Bcrypt` `Netlify`

Education

Apr 2023 - Oct 2023

Open Classroom, Web Developers Associate's Degree
Full-stack web developer bootcamp

Sep 2008 - Jul 2011

Paris XII University, Administration and Internation Exchange Licence
Licence Administration et échanges internationaux

Sep 2004 - Jul 2007

Lycée Jacque Brel, Baccalauréat scientifique
Baccalauréat scientifique

Work Experience

Sep 2018 - Current

SNCF, tramway/train driver

- **Independent Operations:** Successfully managed the autonomous operation of trams and trains, showcasing the ability to work effectively alone.
- **Problem Resolution:** Expertise in addressing and resolving various issues, including malfunctions and other challenges, ensuring a smooth and safe transportation experience.
- **Conductor Expertise:** Operated trams and trains with precision, maintaining a strong focus on safety and adhering to strict schedules.
- **Customer Service:** Demonstrated excellent communication skills, addressing passenger queries and contributing to a positive commuting experience.

Mar 2016 - Jan 2018

Darty, salesperson

- **Sales Expertise:** Excelled as a sales professional, specializing in computer and telecommunications products.
- **Customer Advisory:** Provided knowledgeable and personalized advice to customers, aiding them in making informed purchase decisions.
- **Closing Deals:** Demonstrated efficiency in closing sales, not only in products but also in services, contributing to overall business growth.

Jun 2011 - Mar 2015
